# **EDUCATION**

JAN 2020 – Master of Science in Computer Science
DEC 2021 Georgia Institute of Technology, Atlanta, GA.

- Specialization in Machine Learning

AUG 2015 – May 2019 **Bachelor of Science in Computer Science** 

Georgia Institute of Technology, Atlanta, GA.

- Concentration in system architecture and theory

- Dean's List Fall 2015, Spring 2016, Fall 2016, Fall 2018, Spring 2019

AUG 2017 – DEC 2017 **Bachelor of Science in Computer Science** 

Hong Kong University of Science and Technology, Hong Kong.

- Studied abroad

# Professional Experience

FEB 2021 -

### Balena - Backend Engineer

PRESENT | Remote (Atlanta, GA).

- Develop backend code for the Balena ecosystem
- More details to come...

JUN 2019 – FEB 2021

### Georgia Tech Research Institute - Research Scientist

Atlanta, GA

- Lead contributor to research projects sponsored by large entities DARPA, NIH, DOD, and ONR
- Wrote and published peer reviewed conference and journal papers to communicate research findings to the greater research community
- Contributed and participated in white paper and proposal writing to bring in more funding for new and on-going projects
- Delivered applied research projects to sponsors such as source code, web applications, and technical reports

Jan 2016 – May 2019

# Georgia Tech Research Institute - Undergraduate Research Assistant

*Atlanta, GA*.

- Lead contributor to research projects sponsored by large entities NIH and ONR
- Wrote and published a peer reviewed journal paper to communicate research findings to the greater research community
- Delivered applied research projects to sponsors such as source code, web applications, and technical reports
- Predicting crimes in Portland, OR using temporal and geographic features derived from crime statistics and GIS data

MAY 2016 – AUG 2017

### The Boeing Company – Software Development Intern

Kent, WA.

- Developed a security auditing tool suite for Red Hat Enterprise Linux 7 to maintain hardened security on classified servers
- Developed a web application in C#, HTML, and JavaScript to view and analyze network traffic
- Developed several system administration scripts as needed by team members to complete tasks such as emailing system logs and automatic server backups
- Organized and led a software development team to create a minimum viable product of a Kanban board web application
- Pitched the Kanban board prototype to management to form a team to continue development of the application after I left
- Documented and executed an upgrade plan for the company's identity management servers
- Developed an Outlook-integrated conference room mapping tool in C#

# **PROJECTS**

### AlgebraicJulia

Georgia Tech Research Institute.

- A GitHub Organization for a collection of Julia packages for defining modeling frameworks as generalized algebraic theories
- Includes Julia packages such as Catlab.jl, AlgebraicPetri.jl, and AlgebraicRelations.jl
- A category theory approach to defining metamodeling tasks for representing, composing, selecting, and tuning scientific models
- Research funded by the Defense Advanced Research Projects Agency (DARPA)

#### Petri.jl

Software Development.

- A stochastic petri net modeling framework for the Julia programming language
- Allow petri nets to be compiled to Gillespie and differential equation based simulations

### VirtualEnv.jl

Software Development.

- Self-contained virtual environments for the Julia programming language
- A reimplementation of venv from Python in Julia

#### **Corsair Database**

Georgia Tech Research Institute.

- Research funded by the Office of Naval Research (ONR)
- Developed a web application for viewing and analyzing sonar SAS data using Go, Python, and PostgresDB deployed with Docker and Drone.io
- Engineered a database for managing scientific experiments to utilize the speed and efficiency of using a rigid relational database, while being flexible enough to handle the changing data requirements of scientific experimentation

# RESEARCH

## **Funding**

- 2020 2021 Task Lead, DARPA, Computable Models Generalized Algebraic Theories for Enhancing Multiphysics, ≈\$1.35M
- 2018 − 2021 Task Lead, DARPA, Artifical Intelligence Exploration Automating Scientific Knowledge Extraction, ≈\$1M
- 2019 2021 Performer, Office of Naval Research, Extracting, Explaining, and Estimating Information in Sonar Data, ≈\$400K
- 2019 − 2021 Performer, Office of Naval Research, MCM Situational Awarness, ≈\$375K
- 2018 2019 Performer, Air Force, *Network Risk Indication*, ≈\$135K
- 2016 2019 Performer, Office of Naval Research, Performance Estimation of Underwater MCM Operations, ≈\$990K
- 2015 2019 Performer, Office of Naval Research, Automation for UxV-based Mine Countermeasures, \$540K

#### **Peer Reviewed Conference Publications**

- Compositional Scientific Computing with Catlab and Semantic Models, Micah Halter, Evan Patterson, Andrew Baas, James Fairbanks, Applied Category Theory, 2020
- Semantic Models. jl: A Julia Package for Scientific Model Augmentation, Micah Halter, Sreenath Raparti, Kun Cao, Christine Herlihy, James Fairbanks, Julia Con, 2019
- A Compositional Framework for Scientific Model Augmentation, Micah Halter, Christine Herlihy, James Fairbanks, Applied Category Theory, 2019

### **Under Review Journal Publications**

- Accelerating Automatic Target Recognition Performance Estimation with a Relational Database for Synthetic Aperture Sonar, James Fairbanks\*, Micah Halter\*, Trevor Goodyear, Matthew Jackson, Brian O'Donnell, John Wilcher, Navy Journal of Underwater Research, 2018

#### Invited Talks

- Compositional Epidemiological Modeling Using Structured Cospans, Micah Halter and Evan Patterson, University of California Riverside Categories Seminar, Nov 2020

#### Posters

- SemanticModels.jl: A Framework for Automatic Composition of Scientific Models Across Domains, Micah Halter, Kun Cao, James Fairbanks, SIAM Conference on Parallel Processing for Scientific Computing, Feb 2020
- Scientific Knowledge Extraction, Augmentation & Analysis, Micah Halter, James Fairbanks, Eric Davis, Clayton Morrison, Ryan Wright, DARPA Demo Day, Sep 2019
